

LOOKING FORWARD: WHAT'S NEXT FOR AMERICA?

A new dawn is arriving in America. These past few months have thrust upon us challenges that many of us never expected. But embedded in these challenges are opportunities. Hankey Law is recommitting to working for justice with true compassion.

Since March, many of our employees have been working remotely. All of our appointments and hearings with our clients have taken place over the phone.

I am thankful that we have been able to continue to serve our community where and when we are needed the most. I know that times are tough but our disabled clients

need to continue with their medical care and follow recommended treatments.

We remain here for you just as we've always been. We are proud to have advised many of our client's families on excessive police force situations and inappropriate medical care for those in custody.

My wish is for each and every one of us to stay strong and to stay safe during this time. With divine help we can bring good out of evil.

All my best,
Charles Hankey

Welcome Attorney Tyler Doane!

Last November, Tyler Doane joined the Hankey team as the newest attorney. Tyler graduated from the Indiana University Robert H.

McKinney School of Law in 2014 and was sworn in during October of that same year. After being sworn in, he worked as a trial attorney for the Marion County Public Defender Agency for five years. We asked Tyler a few questions to give everyone the opportunity to get to know him better.

Q. What made you want to become an attorney?

A. Being an attorney always appealed to me because of the path it provided to connect with, and help, people in the community on a wide range of legal needs.

Q. What made you want to work at the Hankey Law Office?

A. The firm's commitment to client-centered, justice-driven representation aligns with my professional and personal philosophies.

...Attorney Tyler Doane (cont.)

Q. Who or what inspires you most?

A. First and foremost, my family members. As educators, they instilled in me at a young age the importance of connecting with, and giving back to, those in my local community.

As a student at Valparaiso High School, I learned invaluable lessons from both my teachers and coaches. Being selected as a recipient of the Senior Student Athlete Award was a direct testament to the significant impact these integral role models had on my life.

During my time at DePauw University, I worked closely with professors, coaches, teammates, and classmates to cultivate a better understanding of hard work in pursuit of achieving common goals. I was also fortunate to be selected by my teammates as co-captain of the DePauw Football Team and DePauw Track and Field Team my senior year.

Additionally, visiting local schools, working with the Special Olympics, and hosting prospective college students were all personally rewarding experiences.

Recipe: Beefy French Onion Potpie

Ingredients

- 1 lb. ground beef
- 1 small onion, chopped
- 1 can (10.5 oz.) condensed French onion soup
- 1.5 cups shredded part-skim mozzarella cheese
- 1 tube (12 oz.) buttermilk biscuits

Directions

Preheat oven to 350°. In a large skillet, cook beef and onion over medium heat 6-8 minutes or until beef is no longer pink, breaking beef into crumbles; drain. Stir in soup; bring to a boil.

Transfer to an ungreased 9-in. deep-dish pie plate; sprinkle with cheese. Bake 5 minutes or until cheese is melted. Top with biscuits. Bake 15-20 minutes longer or until biscuits are golden brown.

Providing Helping Hands to Give Back

In 2019, a group of Hankey employees banded together to create what is now known as the Community Engagement Committee. Our team worked alongside four local organizations to help them in their causes.

The first organization was Pathway to Recovery. Our staff went out to the Pathway House and did some landscaping for them, including building a fire pit.

We also worked with the American Foundation for Suicide Prevention (AFSP) and joined them at their Out of the Darkness Walk. Our staff also participated in training with AFSP to better learn how to assist those in crisis.

Right before Thanksgiving, the Hankey Staff went to Second Helpings to help prepare meals for the holiday for Hoosiers in need.

During the Christmas season, we adopted two families through Soldier's Angels and

purchased gifts for the children to open on Christmas morning.

Being able to work with these organizations and see the good that they do in our community made an impact on us at the Hankey Law Office, and we look forward to working with more organizations in the future.

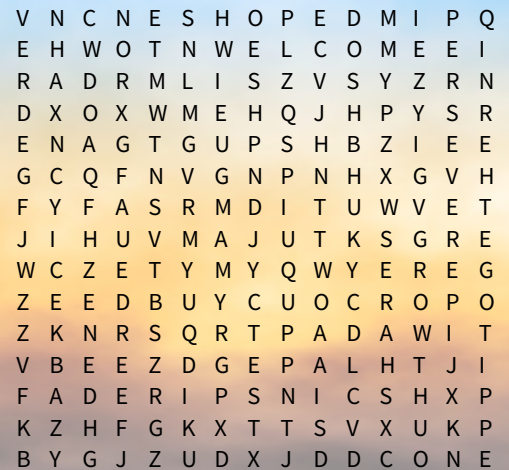

New Day Puzzler

Change may be scary, but together we are strong enough to handle it. See if you can find the words that represent a 'new day' below.

Remember, words can go forwards, backwards, up, down, and diagonally.

- Welcome

DANGEROUS PRODUCT ALERTS

Certain HIV Medicines May Lead to Kidney Disease

You may be eligible for compensation if you currently take or have taken any of the following medications used to treat or prevent HIV:

Truvada, Viread, Atripla, Complera, or Stribild.

Gilead Sciences, Inc. is the biotechnology company responsible for the aforementioned HIV medications, which are a form of tenofovir disoproxil fumarate (TDF). TDF drugs are linked to severe side effects, including chronic kidney disease, bone density loss and fracturing. It is alleged that Gilead knew of the harmful side effects as early as 2001. The FDA even issued a letter to Gilead in 2002 about their marketing practices regarding TDF and its side effects, as they felt Gilead was giving misleading information.

It is also alleged that Gilead withheld the safer alternative, tenofovir alafenamide (TAF), because of the profits they were making from their TDF drugs. TAF has a lower dose of tenofovir, which reduces the risk of kidney and bone injuries.

If you or a loved one have taken Truvada, Viread, Atripla, Complera, Stribild and experienced kidney disease or bone density loss and fracturing, please contact our office right away at 317-634-8565 so we can assist you.

Roundup Weed Killer Known to Cause Cancer

Weed killer, or herbicide, is available for purchase in stores all across the

country. One of the most popular products is Roundup, an herbicide containing glyphosate as its main ingredient. Roundup was originally a Monsanto product, but the company was purchased by Bayer in 2018.

In May 2019, a California jury awarded a couple more than \$2 billion after they claimed the glyphosate in their Roundup weed killer caused their non-Hodgkin's lymphoma, a form of cancer. While Bayer plans to appeal the decision, there are over 13,000 cases pending against them for similar claims.

If you have been diagnosed with non-Hodgkin's lymphoma, and you have regularly used Roundup products, please contact our office at 317-634-8565.

Employee Spotlight: Allie

Allie is a Case Administrator at the Hankey Law Office and previously worked at another law firm as a paralegal while attending college at Indiana University in Bloomington.

Allie grew up in Indianapolis and graduated from Lawrence North in 2015. She recently graduated

from IU in 2019 with a degree in Community Health Management. She will be taking the LSAT in June and is hoping to attend law school in the fall of next year.

Allie enjoys hiking and knitting and spending time with her boyfriend, Tim, and her dog, Indiana Bones.

Past results afford no guarantee of future results. Every case is different and must be judged on its own merits. The contents of this newsletter do not constitute legal advice.
